

SERVICE OFFERINGS THAT WILL TAKE YOUR BUSINESS TO PROFITABLE NEW HEIGHTS

ALMO[®] CONTROL

- program
- configure
- deploy

Want to get into the control systems business, but don't have programmers on staff?

Did you land a big programming job but find yourself shorthanded?

Do you have expertise in one control system, but need resources for another?

Are you leaving profitable business on the table for your competitor?

CONTROL SYSTEMS & PROGRAMMING SERVICES FOR PROFIT AND GROWTH

CONFIGURE AND PROGRAM CONTROL SYSTEMS THROUGHOUT THE US, LATIN AMERICA & THE CARIBBEAN

Scaling your staff to meet customer demands is a constant challenge for integrators & installers. That's why Almo has expanded its offerings to include control system programming services—when and where you need it.

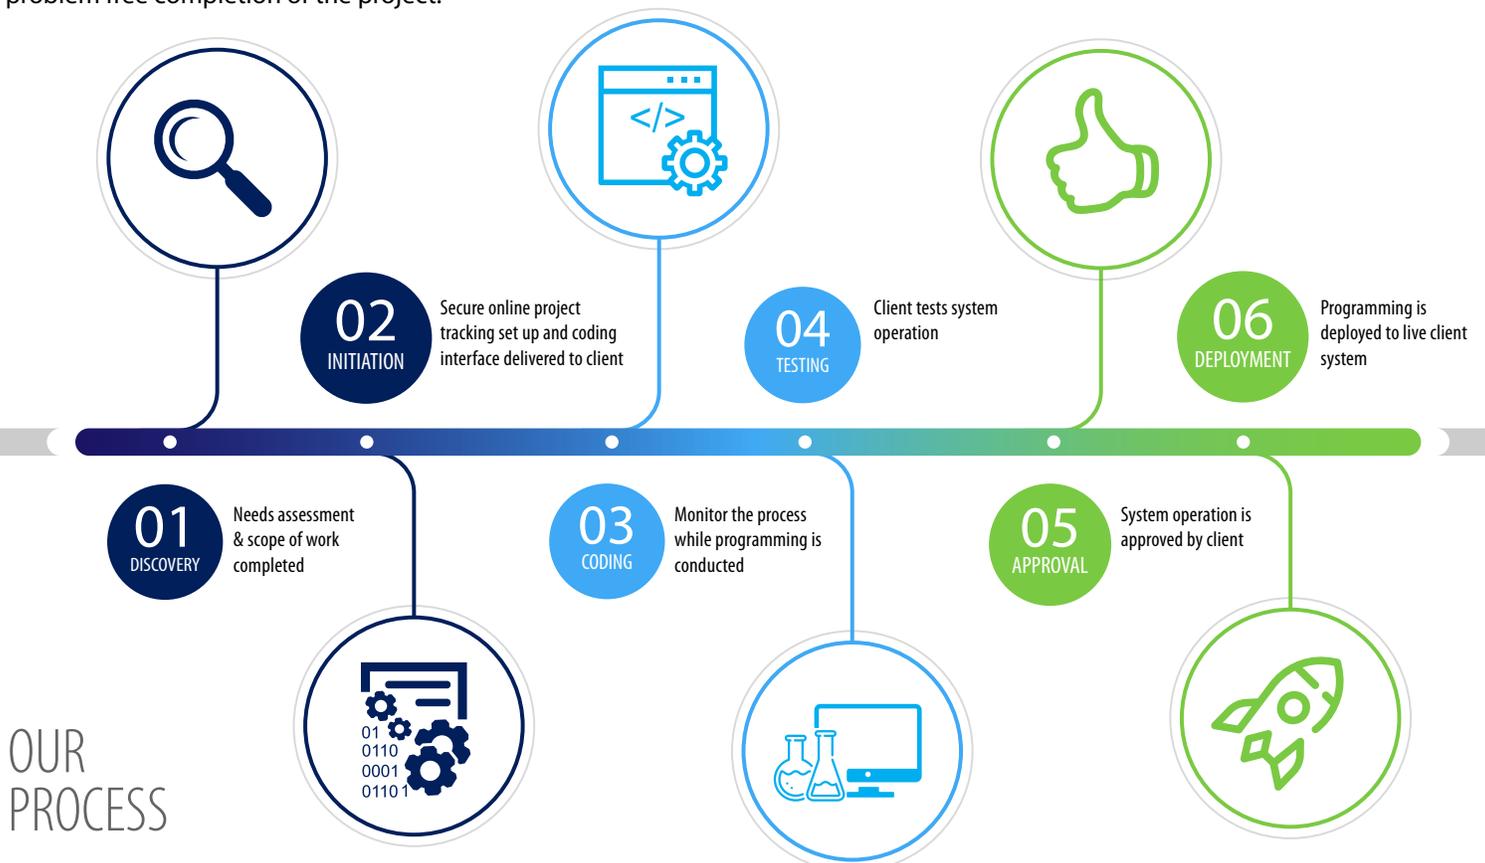

Meet customer demand on time and on budget. Our reseller partners can white label our services as their own, creating a seamless experience for the end user. Our Almo CONTROL staff is experienced, highly trained and follow a well vetted scope of work, created with your assistance and input from your Customer.

PROGRAMMING SERVICES AVAILABLE FOR:

WE'RE HERE – *EVERY STEP OF THE WAY.*

Almo uses a team approach when deploying your project. It starts with our Business Development Manager who does the initial Project Needs Assessment. From there, our partner has a seasoned and certified programming team qualified to handle all system requirements. This assures you a direct line of accountability, and a consistent programming methodology; resulting in an efficient and problem free completion of the project.

OUR
PROCESS

HOW CAN WE SERVE YOU?

When to use Almo CONTROL Services for a project

- | Outside your normal service area
- | Requires more labor than your current staff can handle
- | Has a skill set outside your staff's expertise
- | Not your core competency
- | New to control systems programming
- | The project requires a certified programmer that you do not have on staff

The benefits to our reseller partners

- | Improve customer service
- | Reduce payroll, recruiting expenses
- | Increase the ability to take on more projects
- | Improve cash flow with Almo's net 30 terms
- | Manage peaks in business
- | Expand your service area
- | Grow services revenue and increase your margin
- | Quick response time
- | Access to resources for 10 programming languages

Meet DGC

Outstanding control system programming and deployment

Having provided outstanding control system programming and system commissioning support services since the year 2000, DGC proudly offers the industry a highly refined set of tools and processes which afford many unique benefits to customers. Chief among them are an industry first *Customer Bill of Rights* protecting clients with an unprecedented set of warranty and service guarantees, and a highly responsive team.

What systems can Almo CONTROL help deploy?

AMX Rapid Project Maker (RPM)

For a quick turnaround project at a very affordable price, we recommend AMX's configurable system. We can take you through process of setting up your technology quickly, easily and reliably.

AMX Custom Projects

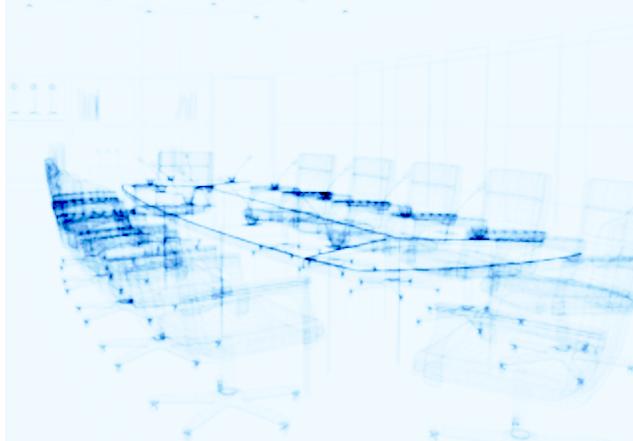

For more complex implementations of AMX's award-winning products—spanning control and automation, switching, distributed audio and video, and technology management—custom programming may be the solution for your customer.

ClearOne DSP

Our team of expert programmers will make sure that your audio systems are tuned and configured to produce the best quality sound for your space(s).

Crestron

Crestron's automation and control solutions for homes and buildings let people control entire environments with the push of a button, integrating systems such as AV, lighting, shading, security, BMS and HVAC to provide greater comfort, convenience and security.

Control the Future of Your Business.

Complete control system configuration and programming to your suite of design and installation offerings adds a whole new dimension to your business. Partner with us to make this often complex area simple for you and your customers.
