NEC Display Solutions’ complete 3x3 LCD TileMatrix Video Wall Solutions provide an all-in-one, easy-to-configure solution that is ideal for dynamic digital signage, information display and command & control applications.

Exclusive TileMatrix and TileComp™ technologies, combined with the ultra narrow bezel design of the NEC 46” UN462A, UN462VA, 49” UN492S, UN492VS, 55” UN552S, UN552VS, UN552, UN552V and the full adjustment capabilities of the Peerless-AV DS-WW775, provide for a near seamless video wall that is easy to configure, and allows for portrait or landscape installation. These bundles also offer 24/7 run times with industrial-grade panels that feature internal temperature sensors and integrated cooling fans. The ultra narrow bezel of the UN Series models offer 0.88mm-5.7mm between consecutive displays and built-in Auto TileMatrix capabilities ease installation and setup capabilities.

**Highlights**

- **Bundled solution** with everything required for a 3x3 video wall makes configuration and installation easy
- **Direct LED backlighting** improves power consumption and uniformity
- **NEC Display Wall Calibrator Kit** features software and a sensor, allowing for accurate brightness intensity and white point matching from screen-to-screen for greater overall color uniformity
- **Auto ID and Auto TileMatrix technology** is integrated into each NEC display within the bundle, allowing for easy manipulation of a single picture to 3x3 format
- **Ultra Narrow Bezel design** provides for some of the smallest bezel widths in the industry
- **Industry’s most extensive display control**, including RS-232, Ethernet connectivity, NaViSet software and DDC/CI standard
- **24/7 runtimes** due to professional grade panels and integrated heat dissipation technologies
- **Overframe Bezel Kit** completes your solution by offering a “finished & framed” look  
  (Not available for the UN552S and UN552VS bundles)
- **Remote Control and Human/Ambient Light Sensor Kit** provides the entire video wall with one sensor that detects ambient light, allows for human sensing capabilities and delivers simple remote control functionality
- **SpectraView Engine** - exclusive color processing allows for an unparalleled level of color control, uniformity, accuracy and stability
- **Industrial-strength, premium-grade panel** - with additional thermal protection, internal temperature sensors with self-diagnostics and fan-based technology, allow for 24/7 operation
- **HDMI and DisplayPort daisy chain capabilities** can support up to 4K UHD resolution
- **New TileCut function** added to the TileMatrix functionality - for ultimate adjustment of the imagery in the wall
- **Uniformity calibration** - of each display for gamma, intensity and RGB for consistency from display to display
- **NEC Display Wall Calibrator** - MultiProfiler, SpectraView, and NaViSet Administrator 2 software compatible.

### Peerless Pull-Out Mount* - Qty 9

*Peerless-AV full-service video mount DS-VW775 features customizable wall spacers for perfect placement and a pull-out/prop-open mechanism for quick service access.

### SurgeX Power Conditioning

- Protects equipment from power disturbances
- Superior technology to conventional single-stage MOV circuitry
- Completely non-sacrificial and never requires rest

### NEC Accessories

**Overframe Bezel Kit** creates a uniform and finished look

**KT-LFD-CC2 - Qty. 1**

- Display Wall Calibration Kit includes the calibration software on a USB drive and a color sensor, a version of the X-Rite MDSVSENSOR3

**KT-RC3 - Qty. 1**

- Remote Control and Human/Ambient Light Sensor Kit maximizes brightness efficiency and power usage for video wall products.

### Included Cables

**DisplayPort/HDMI Cables - Qty. 9**

DisplayPort and HDMI cables used for daisy chaining video signal through the video wall. 2M included w/ 46” & 49” displays. 3M included w/ 55” displays. (included with in display box)

**LAN Cables - Qty. 9**

LAN cables for control daisy chain between consecutive displays (included with in display box)

**Long LAN Cable - Qty 1**

25ft cat5e snagless UTP patch cable* for control connection from source to the first monitor

**USB Extender Cable**

10ft USB 2.0 A male to B female extender cable
